Subject: Thanks for helping on the NEPI!

Peter,

Can you contact these groups and get them to send you any energy policy options they are advocating? Can you then review the proposals and recommend some we might like to support that are consistent with the Administration energy statements to date? You can add others to the list, should you so desire. If this requires more than one person let me know and we can get the ODs to assign someone to help you. Need by Friday noon.
