Joe

This is a follow-up to your call last Friday with Rob Brenner, Tom Gibson, and me. Attached is the write up of all of the NSR-related recommendations that EPA believes should be in the NEPD report. If we need to discuss this at a principle's meeting, we would anticipate circulating this plus the NSR background piece that was previously circulated. However, we continue to believe that NSR was appropriately addressed in a previous principle's meeting.

I believe that Tom and Rob will want to talk to you about this again -- I think we are trying to set up something for Wednesday or Thursday.

I didn't catch Jean's last name, so could you please forward this to her?

Thanks,
