CN=James Fremont/OU=EE/O=DOE>-----<DL-ALLEE>-----<09/17/2001 11:48:41 AM>-----<Oct. 11 lecture - Slaying the Electricity Vampires in Your Home

----- Message body -----
The October 11 Buildings for the 21st Century lecture -- to which you are cordially invited -- will feature Alan Meier of Lawrence Berkeley National Laboratory (LBNL) discussing electricity vampires, household appliances which continuously draw power even when they are switched off, and collectively cost American households about \$4 billion every year. Mr. Meier will explain which appliances consume standby power, how you can reduce standby power consumption, large-scale measures to reduce standby power use, new technologies that cut standby power by 90 percent, and LBNL's international proposal for reducing standby power requirements. Date: Thursday, October 11, 2001 Time: 12:30 - 1:30 p.m. Location: The National Building Museum, 401 F Street NW, Washington, DC (Judiciary Square Metro Station on the Red Line) Speaker: Alan Meier, Lawrence Berkeley National Laboratory Topic: Slaying the Electricity Vampires in Your Home The Buildings for the 21st Century lectures, sponsored by the Department of Energy and the National Building Museum, are free and no registration is necessary. AIA members receive one hour of continuing education credit for attending. Future lectures: November 15, 2001 - David Garman, Assistant Secretary for Energy Efficiency and Renewable Energy, U.S. Department of Energy - What do Buildings Have to do With The National Energy Policy? No lecture is scheduled for December. Lectures will resume in January 2002. Information on DOE's efficient buildings programs is posted on: www.eren.doe.gov/buildings. For information on the National Building Museum, visit: www.nbm.org. To add someone to the lecture e-mail or flyer mailing list, contact Jim Fremont at james.fremont@ee.doe.gov or at 202-586-5735.

Andrew -----Original Message----- From: Addison, Wanda [mailto:wanda_addison@nrel.gov] Sent: Tuesday, September 04, 2001 11:06 AM Subject: NREL Brown Bag Seminar and Golden Videoconference You are invited to a seminar on EERE Strategic Program Review by Buddy Garland. The speaker, Buddy Garland, is Director of EERE's Office of Planning, Budget and Outreach and is leading the Strategic Program Review. In September, the Office of Energy Efficiency and Renewable Energy (EERE) will complete a Strategic Program Review of all current EERE programs to assess past and present program strategies, performance, and benefits. The brown-bag seminar will take place at 12:00 p.m. on Thursday, September 13, 2001 in Conference Rooms A&B at the NREL Washington DC office. Please see below for an abstract of the talk. Our office is located in the Aerospace Center at 901 D Street, SW, Suite 930, Washington, DC 20024. We are across D Street from L'Enfant Plaza. We are accessible on the Blue, Orange, Yellow, and Green Metro lines through the L'Enfant Plaza Metro station. Parking is also available in the Aerospace Center. Soft drinks will be provided. We hope you will be able to attend this talk. Please feel free to pass this invitation on to a colleague who might be interested in attending. PLEASE LET US KNOW IF YOU WILL BE ATTENDING. Please RSVP to wanda_addison@nrel.gov, or call 202-646-5278 by Wednesday, September 12, 2001. If you previously

sly responded, no action is required. Abstract In September, the Office of Energy Efficiency and Renewable Energy (EERE) will complete a Strategic Program Review of all current EERE programs to assess past and present program strategies, performance, and benefits. The review will identify any programmatic activities that will need to be conducted to carry out the National Energy Policy (NEP). In addition to fulfilling NEP recommendations 4-2 and 6-3 as well as the direction of Secretary Abraham, the Strategic Program Review is an integral part of the evaluation, planning, budget formulation, and budget execution processes outlined in the EERE Strategic Management System. The review findings will serve as an integral part of an integrated baseline to produce the new EERE Strategic Plan, scheduled to be completed this fall, and the FY04 Budget request to Congress.

I will attend. -----Original Message----- From: Nicholls, Andrew K Sent: Tuesday, September 04, 2001 12:43 PM To: Jerry Dion (E-mail) Cc: McDonald, Sean C; Stevenson, Lisa A Subject: FW: NREL Brown Bag Seminar and Golden Videoconference Jerry, I will be on travel, otherwise I would definitely attend this SPR "brown bag" with Buddy. Thought you might find of interest. Sean, did you also get this? Andrew -----Original Message----- From: Addison, Wanda [mailto:wanda_addison@nrel.gov] Sent: Tuesday, September 04, 2001 11:06 AM Subject: NREL Brown Bag Seminar and Golden Videoconference You are invited to a seminar on EERE Strategic Program Review by Buddy Garland. The speaker, Buddy Garland, is Director of EERE's Office of Planning, Budget and Outreach and is leading the Strategic Program Review. In September, the Office of Energy Efficiency and Renewable Energy (EERE) will complete a Strategic Program Review of all current EERE programs to assess past and present program strategies, performance, and benefits. The brown-bag seminar will take place at 12:00 p.m. on Thursday, September 13, 2001 in Conference Rooms A&B at the NREL Washington DC office. Please see below for an abstract of the talk. Our office is located in the Aerospace Center at 901 D Street, SW, Suite 930, Washington, DC 20024. We are across D Street from L'Enfant Plaza. We are accessible on the Blue, Orange, Yellow, and Green Metro lines through the L'Enfant Plaza Metro station. Parking is also available in the Aerospace Center. Soft drinks will be provided. We hope you will be able to attend this talk. Please feel free to pass this invitation on to a colleague who might be interested in attending. PLEASE LET US KNOW IF YOU WILL BE ATTENDING. Please RSVP to wanda_addison@nrel.gov, or call 202-646-5278 by Wednesday, September 12, 2001. If you previously responded, no action is required. Abstract In September, the Office of Energy Efficiency and Renewable Energy (EERE) will complete a Strategic Program Review of all current EERE programs to assess past and present program strategies, performance, and benefits. The review will identify any programmatic activities that will need to be conducted to carry out the National Energy Policy (NEP). In addition to fulfilling NEP recommendations 4-2 and 6-3 as well as the direction of Secretary Abraham, the Strategic Program Review is an integral part of the evaluation, planning, budget formulation, and budget execution processes outlined in the EERE Strategic Management System. The review findings will serve as an integral part of an integrated baseline to produce the new EERE Strategic Plan, scheduled to be completed this fall, and the FY04 Budget request to Congress.

his is unambiguous though the dates have slipped last week to better reflect reality. That's good news. I am reattaching what I believe to be the latest timeline. The key near-term dates on this timeline are: 6. Complete "White Papers" on Workshop Topic Areas 17 Sept 01 7. Technology Workshops Held week of Sept 24th 8. Working Group Reports Submitted for ISG and Agency Reviews 12 Oct 01 * On item # 6 in the timeline.

----- Addendum: In internet links to climate "technology profiles" can be exercised, via the following direction: Deborah Counce from ORNL posted the files for Appendix B on a web site so we can download them. The files may be accessed at http://www.ornl.gov/~xce/ <http://www.ornl.gov/~xce/>. The files we are interested in begin with tp (e.g., tp_1, tp_2). She also included Page 28

12939

DOE016-3303

DION mail

the pdf files for the appendix, which are in the folder titled "pdf files". These files were created in Word Perfect (not MS word). They are set up as tables, so they will not pull into MS Word with all the pieces intact. The files do not open directly from the web site, so you need to save them to your hard drive or a zip disk. When you access the web site, double click on the appropriate folder (tp_1, tp_10, etc.). The Word Perfect document file will come up (e.g., tps_1.wpd). Right click on the file and choose "Save target as". Choose the destination to save the file and then click on "save". You will get a screen showing the time it will take to save the file and that gives the progress of the save function. (Please be aware that some of the files are large [8.8 MB] so it may take a while for them to download.) If you have any questions, please let me know. Stan Bull (303) 275-3030 - C.DTF

----- Message body -----

The Rand summary report of the E-vision 2000 conference, the proceedings, and the formal papers have made their way through the compilation and peer review process (where appropriate) and are now available online. We have placed two copies of the 50 page summary of Proceedings, Scenario Analysis, Expert Elicitation and Submitted Papers in your Interoffice Mail. The Summary of Conference Proceedings (PDF version), Session Transcripts, Formal Papers, Scenario Analyses and Delphi results and analysis are now available online at: <http://www.rand.org/scitech/stpi/Evision/index.html>. For your "quick study" I have attached a draft mini-summary of the report that I am creating for the NEP (5 pages). I am holding a hard copy of the report and formal papers should you find that more convenient to use than the electronic versions. Dave Garman has sent a copy of the summary and formal papers to Loretta and the other hill committee staff principles who supported this undertaking.
