Declaration of Alexander Tom

**IN THE UNITED STATES DISTRICT COURT
FOR THE EASTERN DISTRICT OF MICHIGAN
SOUTHERN DIVISION**

CONCERNED PASTORS FOR SOCIAL
ACTION, et al.,

Plaintiffs,

v.

Case No. 16-10277

Hon. David M. Lawson

NICK A. KHOURI, et al.,

Defendants.

_____ /

DECLARATION OF ALEXANDER TOM

I, Alexander Tom, declare as follows:

1. I am an attorney employed by the Natural Resources Defense Council, a plaintiff in this action.

2. I have prepared a spreadsheet titled “Consent Attempt Summary” based on data provided by the City of Flint to Plaintiffs relating to the City’s compliance with Paragraph 15 of the Settlement Agreement (Agreement) in this case, as modified in July 2018 and February 2019. ECF Nos. 147-1, 174, 208. Paragraph 15 requires the City to conduct outreach, by mail and in person, to obtain Flint residents’ consent to conduct service line excavations and replacements on their properties. *E.g.*, Order Amending Settlement Agmt. (2019 Order) ¶ 15, ECF No. 208, PageID.10355. The spreadsheet I prepared, which is

cited in Plaintiffs' Fourth Motion to Enforce Settlement Agreement, is attached as Exhibit A to this declaration.

3. To prepare the Consent Attempt Summary, I relied on data from a spreadsheet with the filename "2020-06-30 Non-Responsive Addresses.xlsx" [hereinafter, "Non-Responsive List"], provided to Plaintiffs in an August 11, 2020 email from William Kim, Assistant City Attorney, City of Flint. *See* Declaration of Sarah Tallman dated September 3, 2020 (Tallman Decl.), Ex. V. I understand that, according to the City, the Non-Responsive List is a list of homes for which the City says it has satisfied its outreach obligations under Paragraph 15 of the Agreement but has not received a response granting or denying permission to conduct a service line excavation or replacement.

4. The City's Non-Responsive List contains 807 addresses, each with its own row. As relevant here, the Non-Responsive List contains a separate column for each "consent attempt," which I understand refers to an occasion on which a representative from the City attempted to obtain consent from the resident at that address to conduct a service line excavation and replacement. The entry under each column consists of the date and time of the consent attempt.

5. The Non-Responsive List contains eight such columns. The second through eighth columns, "Consent Attempt #2" through "Consent Attempt #8,"

represent “in-person” consent attempts required under the Agreement. *See* 2019 Order ¶ 15, PageID.10355.

6. The first column, “Mailing / Consent Attempt #1,” does not clearly identify whether an entry represents a mailing or in-person attempt to obtain residents’ consent. The entries under this column include one large batch of attempts (567 entries) recorded at 12:00 p.m. on April 25, 2019; the remaining entries appear to have occurred at unique dates and times. The City’s April 2019 status report shows that the City sent out a large batch of mailings on April 25, 2019. Tallman Decl. Ex. BB (see attachment labeled, “2019.04.29 CoF Monthly Report”). The City confirmed via email that the April 25, 2019 mailing was the only one that it had completed between April 2019 and when it generated the Non-Responsive List, and that other entries thus reflected in-person attempts. Tallman Decl. Ex. H. Accordingly, for purposes of this analysis, I treated entries on 12:00 p.m. on April 25, 2019, as mailing attempts and other entries under this column as in-person attempts.

7. Before analyzing the City’s in-person attempts, I modified the Non-Responsive List in four ways. First, I assigned each address a three-digit identifying number (House ID) from 001 to 807. I created a “House ID” column and numbered the addresses in the order that they were listed. I then hid the “Address” column. The use of the House ID numbers instead of addresses allows

the City to verify the data in the Consent Attempt Summary without public disclosure of private home addresses.

8. Second, I standardized the format of the date/time entries, which were initially listed in different formats, to <mm/dd/yyyy hh:mm:ss AM/PM>. Some entries in the original spreadsheet lacked an “AM” or “PM” designation. For those entries, I assumed that entries between 9:00 and 11:59 occurred in the morning and coded them as “AM.” I assumed that entries between 12:00 and 4:00 occurred in the afternoon and coded them as “PM.”¹

9. Third, I corrected a small number of date/time entries that appeared to have been entered in the wrong column because there was no recorded entry for an earlier attempt at that address. For instance, the row for House 572 contained an entry for “Mailing / Consent Attempt #1” and an entry for “Consent Attempt #4,” but no entry for “Consent Attempt #2” or “Consent Attempt #3.” In those cases, I assumed that the “Consent Attempt #4” entry should have been recorded as the lowest-numbered column containing exclusively in-person attempts (here, “Consent Attempt #2”) and transferred the entry accordingly.² I used this method

¹ I did not encounter this issue for times between 4:00 and 9:00.

² In other words, I did not transfer any entries into the “Mailing / Consent Attempt #1” column.

for all date/time entries in a Consent Attempt column for which an earlier Consent Attempt column was blank.

10. Last, I created additional columns to track the day of the week when each consent attempt occurred. I first inserted eight additional columns, “Day of Consent Attempt #1” through “Day of Consent Attempt #8.” Using an Excel formula, I populated these columns with the day of the week when each in-person consent attempt occurred.³ The formula directs Excel to record the day of the week (in the format of “Mon,” “Tue,” etc.) for the date in the corresponding date/time entry. I then inserted another column, “Number of Weekend Attempts.” For this column, I used an Excel formula to calculate the number of consent attempts that had been made at an address on either a Saturday or Sunday. The formula directs Excel to count the total number of “Sat” or “Sun” entries in that row.

11. I then applied a series of filters to the modified Non-Responsive List to identify two categories of addresses lacking the in-person consent attempts required by the Agreement. (Filtering in Excel allows the viewer to see only those rows that meet specified criteria.) The Agreement requires one mailing attempt and

³ As described in Paragraph 6, entries from 12:00 p.m. on April 25, 2019, were mailing attempts. Because the day of the week of these attempts is not relevant to the City’s satisfaction of its in-person attempt obligations, I entered “n/a” instead of the formula under “Day of Consent Attempt #1” for these addresses.

at least two in-person attempts, with one of the in-person attempts to occur either on a weekend or after 5:00 p.m. 2019 Order ¶¶ 14-15, PageID.10354-10355.

12. For the first category—addresses at which the City has not yet made at least two in-person consent attempts—I isolated two sets of addresses with only a single in-person attempt.⁴ First, I isolated addresses with no in-person attempt recorded in the “Mailing / Consent Attempt #1” column and the only in-person attempt reported in the “Consent Attempt #2” column. I filtered the spreadsheet to show only rows that had either a blank cell or a “4/25/2019 12:00:00 PM” entry under “Mailing / Consent Attempt #1.” This step showed me the addresses with no in-person consent attempt listed in the “Mailing / Consent Attempt #1” column. To find addresses where the only in-person attempt was recorded in the “Consent Attempt #2” column, I filtered to show only rows that had a *blank* cell in “Consent Attempt #3,” leaving 236 rows. I highlighted these rows in yellow. I undid the filtering before proceeding to the next step.

13. Next, I isolated the addresses where the only in-person attempt was recorded in the “Mailing / Consent Attempt #1” column. I filtered to *exclude* rows that had either a blank cell or a “4/25/2019 12:00:00 PM” entry under “Mailing / Consent Attempt #1.” This step showed me only the addresses that list an in-person outreach attempt in the “Mailing / Consent Attempt #1” column. I then

⁴ Each address had at least one in-person attempt.

filtered to include only rows with a blank cell under “Consent Attempt #2,” leaving 47 rows with a single in-person consent attempt under “Mailing / Consent Attempt #1.” I highlighted these rows in yellow as well. I then undid the filtering before proceeding to the next category.

14. The Consent Attempt Summary thus shows that the City has not conducted at least two in-person consent attempts at 283 homes on the Non-Responsive List (highlighted in yellow).

15. For the second category—addresses at which the City has (1) made at least two in-person consent attempts, but (2) no attempts on a weekend and (3) no attempts after 5:00 p.m.—I began by filtering out rows already highlighted in yellow (i.e., those for which the City had not made at least two in-person attempts). Next, I filtered to show only rows that had a “0” for “Number of Weekend Attempts.” This step showed me addresses without any weekend consent attempts. Because the Agreement’s obligations for these homes would still be met if the spreadsheet reflected an attempt after 5:00 p.m., I manually filtered out any row that showed a consent attempt after 5:00 p.m.⁵ This analysis resulted in 183

⁵ I did not treat attempts that occurred at precisely 5:00 p.m. as having occurred “after 5 p.m.” 2019 Order ¶ 15, PageID.10355. Similarly, I did not treat attempts that were recorded after midnight as having occurred after 5 p.m. on the previous day.

remaining rows. I highlighted these rows in blue. I then undid the filtering before proceeding to the next phase of my analysis.

16. The Consent Attempt Summary thus shows that there are 183 homes on the Non-Responsive List that have received at least two in-person consent attempts, but no such attempts on a weekend or after 5:00 p.m. (highlighted in blue).

17. Finally, I examined whether the City had made a mailing attempt at each address on the Non-Responsive List. I created an additional column, “Mailing Attempt on 4/25/19?” As described in Paragraph 6, I treated all recorded consent attempts as in-person attempts, except for 567 mailing attempts made at 12:00 p.m. on April 25, 2019. For those 567 addresses, I entered “NR List” under the new column.

18. I also considered other relevant data previously obtained from the City. With its April 2019 status report, the City provided Plaintiffs with a list of addresses, entitled “P6 Notice Mailing List,” that had been included in the City’s April 25, 2019 mailing. Tallman Decl. Ex. BB.

19. I compared the Non-Responsive List’s 240 addresses without any record of a mailing attempt to the addresses listed on the P6 Notice Mailing List.⁶

⁶ I compared different sets of addresses (as described in Paragraphs 19, 22, and 23) by copying multiple lists into the same spreadsheet. I then used an Excel

Fifty-one of those 240 addresses appeared on the P6 Notice Mailing List. I assumed that the City had sent mailers to those 51 addresses as part of its batch of April 25, 2019 mailings, even though the attempt was not recorded on the Non-Responsive List. I therefore entered “P6 List” under the “Mailing Attempt on 4/25/19?” column in the Consent Attempt Summary for those 51 addresses, and “No” for the remaining 189 addresses.

20. The Consent Attempt Summary thus shows that, based on the assumption in Paragraph 19, there are 189 addresses on the Non-Responsive List for which the City had not made a mailing attempt at the time it produced the Non-Responsive List.

21. The August 2020 modification to the Settlement Agreement required the City to send a mailing to all addresses on the Non-Responsive List by August 31, 2020. Order Amending Settlement Agmt. (2020 Order) ¶ 5, ECF No. 218, PageID.10412. In a September 1, 2020 email, the City provided Plaintiffs with a list of homes that were sent the August 2020 mailing (“August 2020 Mailing List”). Tallman Decl. Ex. H.

formula to check whether a given address from one list appeared in a second list. The formula directs Excel to count the total number of “[Address A]” entries within a column. If the formula returns a “0,” it means that the address is not on the list in that column.

22. I compared the City’s August 2020 Mailing List with the Non-Responsive List to determine whether all of the Non-Responsive List addresses had been included in the mailing. The August 2020 Mailing List included the 189 addresses from the Non-Responsive List that had previously received no mailing attempt. But 164 *different* addresses from the Non-Responsive List were not listed on the August 2020 Mailing List.

23. To account for the possibility that some of those 164 addresses had changed status since being placed on the Non-Responsive List, I also compared the Non-Responsive List with the City’s Quarterly Report for August 28, 2020—a spreadsheet that the City provided to Plaintiffs in an August 28, 2020 email. Tallman Decl. Ex. X. The Quarterly Report includes lists of (1) homes that have declined permission to conduct a service line excavation and replacement (“Declinations” tab) or (2) homes that have had that work completed (“SL Exp & Rep” tab). I compared both of these lists to the 164 Non-Responsive List addresses that were omitted from the August 2020 Mailing List. Sixty-six of those addresses were not on either the Declinations or SL Exp & Rep lists.

I declare under penalty of perjury that the foregoing is true and correct.

Executed in Glenbrook, NV, on September 4, 2020.

Alexander L. Tom
