Subject: Summary Comments on the Pebble Project DEIS

To: <drafteis@comments.pebbleprojecteis.com>

Dear Mr. McCoy,

As detailed in the attached summary comment letter, based on a careful review of the Pebble Mine DEIS, it is my professional opinion that the document and associated analysis is fatally flawed. The DEIS contains an unacceptable number of deficiencies, omissions and errors for such a large, complex project in an extremely sensitive environment. Due to the global significance of the salmon fishery, any EIS within the Bristol Bay watershed should be held to the highest standard, but the Pebble DEIS does not even meet industry standard practice. For ease of review I have also attached my five previous comment letters along with this final submittal.

Sincerely,

Richard K. Borden
